

Dear CPA,

It's time to elevate your and your clients' business management experiences with features that are #SimplyProfessional!

The leading business management software, TallyPrime, launched their latest release TallyPrime 4.0.

Your invite

Join us to discover the #SimplyProfessional features and offerings that will enhance business management experience for both you and your clients.

Saturday, 27th January 2024 | 10:30 AM to 11 AM (EST)

LIVE on ZOOM [Click here to RSVP](#)

The release comes with the following new features:

Intuitive and Powerful Dashboards:

Unlock data visualization with unlimited Dashboards in the way you and your business prefer. Drill down to get a microscopic view of your data as graphs, numbers, or a combination of both in real time.

Excel Import Function:

Navigating the complexities in today's business environment is no small feat, especially with the increasing systems. Now, simplify the process of migrating data from multiple sources into TallyPrime with Excel Import function – a solution designed to help you import any excel document virtually that you want to with Tally's trademark simplicity.

TallyPrime with WhatsApp:

Integration with Meta's official business APIs brings you instant and professional business communication via WhatsApp for Business. So, your business communication with customers will be more professional, swift, and secure. Both confidentiality and agility in business communication is guaranteed.

Other enhancements and capabilities you must not miss:

- Invoice printing is more result-oriented now, as you can print an invoice for a supplier/vendor with the previous and current balances, as applicable at the time of printing.

The latest release is available for TallyPrime, TallyPrime Server and TallyPrime Developer.

For more queries, please contact Tally's customer support at 1800 700 5576.

Regards,
Team ICAI
