A little bit about us!

The Toronto Chapter of the Institute of Chartered Accountants of India (ICAI) is the **first North American Chapter, established in 2006**. Based in Toronto, Ontario, we are a not-for-profit organization that brings together associate and fellow members of ICAI living in Canada.

The chapter was inaugurated by the then President of ICAI, **Mr. Sunil Talati**, with the vision of creating a forum where members could meet, exchange ideas, and build professional as well as social connections.

Since then, the chapter has proudly acted as a bridge between the accounting communities of **India and Canada**.

Here's how we support!

- Networking opportunities for members and families
- Professional development programs on emerging topics
- Social and cultural events to strengthen community ties
- A platform to share knowledge and celebrate achievements
